

Sunkissed Ultra/Ultramel Anery Tessera PROJECT

All hatchlings from the following adults are, of course, Anery mutants since that was the only gene mutation common to both parents. Father is a Sunkissed Anery and Mother is an Ultramel Anery Tessera so the double-mutant Anery Tessera progeny of this pairing are het for Sunkissed and either Ultra *OR AMEL*. I italicized *OR AMEL* because IF the mother of this year's progeny is an Ultra Anery all of the babies from this pairing will be het for Ultra and Sunkissed. If-as labeled on her cage-the mother (pic'd below) is an Ultramel Anery Tessera, half of the progeny will inherit one copy of Amel and the other half will inherit one copy of Ultra, BUT there is no way to distinguish between them.

Males are \$245.00 plus flat-rate \$39.00 overnight FedEx shipping and Females are out of stock for the season overnight FedEx shipping. Only four of these Sunkissed Anery Project will be sold this year.

FATHER of the 2017 Anery mutants being offered:

MOTHER of the 2017 Anery mutants being offered:

Important Note:

The advertised image of these Anery hatchlings represent the average neonatal phenotype of this morph project. Such images are not renderings of the actual animals being offered. We do not provide pictures of individual hatchling snakes for sale, nor do we recommend that you ever choose a new pet based on an image of its neonatal form. Colors change so dramatically from hatchling to adult, they will NEVER have the same colors or contrasts throughout maturity. While most of the snakes we produce will mature to resemble the featured adult image(s) on our web site, unlike manufactured products that are respectively clones of each other, the nature of polygenic variation results in each animal being similar but not identical to others of its morph. The snake we select for you may not mature to be identical to the pictured examples, but will be chosen based on our experience of observing which neonates will mature to properly represent their respective morph. We take this responsibility very seriously, and therefore publish the guarantee that we will exchange your SMR snake if it does not mature to be like our advertised examples.
