

## Show & \$ell

This 2014 male Terrazzo corn is now 28" long, eating frozen/thawed fuzzy mice. He is het for Lava. All of our Terrazzo stock derives from the original Boyd-line wild-caught Terrazzo and no other Terrazzo genes are in any SMR Terrazzos. Hence, the reason for the more overall tan body coloration and most diffused markings. Her \$205.00 price includes
